

HA-Tag pAb, HRP Conjugated

Catalog No.	IBY0075
Reactivity	Species independent
Applications	WB
Alternative Names	HA epitope tag; HA Tag; hemagglutinin
Formulation	Liquid in PBS containing 50% glycerol and 0.5% BSA.
Source	Rabbit
Dilution	WB: 1:5000
Purification	The antibody was affinity-purified from mouse ascites by affinity-chromatography using specific immunogen.
Concentration	1 mg/ml
Storage&Stability	Store at 4 °C short term. Aliquot and store at -20 °C long term. Avoid freeze-thaw cycles.
Subcellular Location	-
MW	N/A
Background	Human influenza hemagglutinin (HA) is a surface glycoprotein required for the infectivity of the human virus. The HA tag is derived from the HA-molecule corresponding to amino acids 98-107 has been extensively used as a general epitope tag in expression vectors. Many recombinant proteins have been engineered to express the HA tag, which does not appear to interfere with the bioactivity or the biodistribution of the recombinant protein.
Swiss-Prot	N/A

Products Images:

Western blot analysis of extracts from 293T cells (C) or 293T cells transfected with different HA-fusion proteins (A,B),using HA-Tag mouse mAb (1:5000 diluted).
