

ZN598 rabbit pAb

Catalog No.	IPB14274
Reactivity	Human; Mouse;
Applications	WB; ELISA
Dilution	WB: 1:1000-2000 ELISA 1:5000-20000
Gene Name	ZNF598
Protein Name	ZN598
Human Gene Id	90850
Swiss-Prot	Q86UK7
Formulation	Liquid in PBS containing 50% glycerol, 05% BSA and 002% sodium azide
Source	Rabbit
Purification	The antibody was affinity-purified from rabbit serum by affinity-chromatography using specific immunogen
Concentration	1 mg/ml
Storage&Stability	-20°C/1 year
Subcellular Location	-
MW	99440
Background	Zinc-finger proteins bind nucleic acids and play important roles in various cellular functions, including cell proliferation, differentiation, and apoptosis. This protein and Grb10-interacting GYF protein 2 have been identified as components of the mammalian 4EHP (m4EHP) complex. The complex is thought to function as a translation repressor in embryonic development.
